

2015 Annual List of Obligated Projects

Introduction

This publication presents a list of projects in the Central Arkansas Regional Transportation Study area for which Federal funds were obligated during Federal Fiscal Year (FFY) 2015 - October 1, 2014 through September 30, 2015 - on projects in the FFY 2013-16 Transportation Improvement Program (TIP). The TIP contains an estimate of the federal funds that will be needed for project phases to progress during a given fiscal year. When a project reaches a point that funds will need to be expended, a request is sent from the Arkansas State Highway and Transportation Department (AHTD) to the US Department of Transportation, requesting verification that there are funds available for reimbursement. This verification of funding availability "obligates" the funds for use as soon as an expenditure occurs. Fund obligations are a measure of the progress being made on a project. Projects for which funds have been obligated are not necessarily initiated or completed in the program year, and the amount of the obligation will not necessarily equal the total cost of the project. It is possible that obligated funds exceed the amount estimated in the TIP. It is also possible that unused funds may be credited back when not needed at the completion of a project phase, resulting in a negative obligation. For FTA projects, obligation occurs when the FTA grant is awarded. The publication of this list is in response to 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(4)(B) as revised by the SAFETEA-LU and MAP-21 that require ". . . an Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. The listing shall be consistent with the funding categories in each metropolitan transportation improvement program (TIP)."

2015 Lista Anual de Proyectos Obligados

Introducción

Esta publicación presenta una lista de proyectos en la zona Central de Arkansas Estudio Regional de Transporte (CARTS), para los que estaban obligados los fondos federales durante el año fiscal federal (FFY) 2016 - 1 octubre 2014 hasta 30 septiembre 2015 - en proyectos en el Programa de Mejoramiento del Transporte (TIP) para FFY 2016 - 2020. El TIP contiene una estimación de los fondos federales que se necesitarán para las fases de proyecto para el progreso durante un año fiscal determinado. Cuando un proyecto llega a un punto donde los fondos necesitan ser gastados, se envía una solicitud de la Carretera del Estado de Arkansas y el Departamento de Transporte (AHTD - Arkansas State Highway and Transportation Department) al Departamento de Transporte de Estados Unidos (U.S. DOT) solicitando la verificación de que se dispone de fondos para reembolso. Esta verificación de fondos "obliga" a los fondos para su uso tan pronto como se produce un gasto. **Las obligaciones de fondo son una medida de los progresos de un proyecto.** Proyectos para los que los fondos han sido obligados no necesariamente se iniciaron o terminaron en el año del programa, y la cantidad de la obligación no será necesariamente igual al costo total del proyecto. Es posible que los fondos obligados excedan el monto estimado en el TIP. También es posible que los fondos no utilizados pueden ser acreditados cuando no es necesario en la realización de una fase del proyecto, lo que resulta en una obligación negativa. Para los proyectos de la Administración Federal de Tránsito (FTA), la obligación se produce cuando se otorga la concesión de FTA.

La publicación de esta lista es en respuesta a 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(4)(B) en su versión revisada por la SAFETEA-LU y MAP-21 que requieren: ". . . una lista anual de proyectos, incluyendo inversiones en caminos peatonales y instalaciones de transporte de bicicletas, para los que han sido obligados los fondos federales en el año anterior serán publicados o puestos a disposición de otro modo por el esfuerzo cooperativo del Estado, el operador de tránsito, y la organización del transporte metropolitano para revisión pública. La lista deberá ser consistente con las categorías de financiación en cada programa de mejoramiento del transporte metropolitana (TIP)."
