A note on ACS 2012–2016:

Figures from ACS 2012–16 represent a sample-based product that surveys about 1 in 9 U.S. households over ten years. Metroplan estimates are based on housing permit records provided by the city, with adjustments to occupancy and household size based on trends shown by recent ACS data. Metroplan does not estimate housing ownership and rental, so ACS figures are provided instead. Where ACS and Metroplan totals differ, the Metroplan version is more up-to-date.
