Sources:

1. Census 2000 (long form sample data).
2. ACS 2006-2010 and ACS 2012-2016 (sample data).
3. All of the above are tabulated under the CTPP (Census Transportation Planning Package).

Notes:

Figures come from CTPP. Totals are more accurate at county and region level than for individual cities, especially in the 2012-2016 data set. CTPP figures tend to under-count total jobs but are useful for comparison and commuting analysis. CTPP is a special tabulation based on Census Bureau data.
