### METROPLAN ANNOUNCES \$5.9 MILLION FOR LAND RESTORATION AND TREE PLANTING

March 2, 2026

The Metroplan Board has awarded \$5.9 million to 6 projects for restoring land and planting trees across Central Arkansas.

Metroplan is the lead agency for the Energy and Environment Innovation for the Natural State Implementation Grant through the U.S. Environmental Protection Agency (EPA) Climate Pollution Reduction Grants (CPRG) Program.

This grant includes \$15,500,000 for pass-through subawards for Central Arkansas municipalities, counties, and nonprofit partners to implement “Green Networks” projects to preserve land, restore land, and plant trees.

Round 1 projects were awarded funding in May 2025 in the amount of \$8,176,000. With the addition of Round 2, the projects funded to-date will preserve 1002 acres of land, restore 11,210 acres, and plant 180,000 trees, which exceeds the targets identified in the implementation grant.

Projects were evaluated in accordance with program guidelines and at the direction of the Metroplan Board. EPA did not select or endorse project selections. The Metroplan Board of Directors has allocated funding in the following amounts for Round 2 Green Network subawards.

Project Subrecipient	Description	Funding
Arkansas Natural Heritage Commission	Land Restoration at 4 Central Arkansas Natural Areas	\$256,900
